

Appendix 1 from *Orchids of Glasnevin* listing plants described in *The Kew Bulletin* using material or information from the collection at Glasnevin

PLANTS NAMED FOR FREDERICK MOORE
ARE IN BOLD.

- A**
- 250 *Aeranthes caudata* R. A. Rolfe (1901)
type specimen from Glasnevin (ex Madagascar);
flowered and sent for identification in August 1900; painted
August 1898, LS.
- 268 *Aeranthes ramosa* R. A. Rolfe (1906) published
in Orchid review; type specimens from Glasnevin and
Madagascar (leg. Warpur); flowered and sent for
identification in October 1901; painted in 1901, LS.
- 48 *Aerides platyichilum* R. A. Rolfe (1893)
type specimen from Glasnevin (origin unknown);
flowered and sent for identification in April 1892; painted
April 1892, LS.
- 378 *Angraecum andersonii* R. A. Rolfe (1912)
type specimen from Glasnevin (ex Gold Coast,
leg. Anderson); flowered and sent for identification in
December 1911.
- B**
- 262 *Bulbophyllum capituliflorum* R. A. Rolfe (1906)
type specimen from Glasnevin (ex west tropical
Africa); flowered and sent for identification in October 1900;
painted November 1900, LS.
- 373 *Bulbophyllum congestum* R. A. Rolfe (1912)
type specimens from Glasnevin, Burma (leg.
Mokum) and China (leg. A. Henry); flowered and sent for
identification in September 1910.
- 291 *Bulbophyllum dichromum* R. A. Rolfe (1907)
type specimen from Glasnevin (ex Annam, per
Sanders, leg. W. Micholitz); flowered and sent for
identification in February 1907; painted February 1907, LS.
- 261 *Bulbophyllum kerrii* R. A. Rolfe (1906)
flowered and sent for identification in January
1901 (leg. A. F. G. Kerr).
- 452 *Bulbophyllum robustum* R. A. Rolfe (1918)
plant which flowered at Kew sent from
Glasnevin in 1914.
- 205 *Bulbophyllum spectabile* R. A. Rolfe (1898)
type specimen from Glasnevin (ex Assam);
flowered and sent for identification in May 1896.
- C**
- 294 *Calanthe burmanica* R. A. Rolfe (1907)
type specimen from Glasnevin (ex Burma);
flowered and sent for identification in September 1896 and
subsequently.
- 374 *Cirrhopetalum micholitzii* R. A. Rolfe (1912)
flowered and sent for identification in October
1910.
- 382 *Cirrhopetalum miniatum* R. A. Rolfe (1913)
type specimen from Glasnevin (ex Annam, per
Sanders, collector not recorded); flowered and sent for
identification in September 1910.
- 299 *Cleisostoma secundum* R. A. Rolfe (1907)
flowered and sent for identification after 1890;
painted June 1905, LS.
- 282 *Coelia densiflora* R. A. Rolfe (1906) type
specimen from Glasnevin (ex central America, per Messrs
John Cowan); flowered and sent for identification c. 1906.
- 316 *Coelogyne albolutea* R. A. Rolfe (1908)
flowered and sent for identification after May
1896.
- 414 *Coelogyne annamensis* R. A. Rolfe (1914)
type specimen from Glasnevin (ex Annam, per
Sanders); flowered and sent for identification in November
1913; painted 22 November 1913, AJ.
- 24 *Coelogyne flexuosa* R. A. Rolfe (1892)
flowered and sent for identification in May 1889;
painted May 1909, AJ.

- 293 *Coelogyne mooreana* R. A. Rolfe (1907) flowered and sent for identification about December 1906; painted January 1907, LS.
- 260 *Colax tripterus* R. A. Rolfe (1906) type specimen from Glasnevin (ex Brazil); flowered and sent for identification in June 1896.
- 489 *Cryptophoranthus lehmannii* R. A. Rolfe (1922) flowered and sent for identification in November 1899.
- 252 *Cryptophoranthus moorei* R. A. Rolfe (1906) published in Orchid review (1903): type specimen from Glasnevin (ex tropical America); flowered and sent for identification in September 1899.
- 112 *Cryptophoranthus oblongifolius* R. A. Rolfe (1895) type specimens from Glasnevin and Andes (leg. J. Charlesworth); flowered and sent for identification in November 1895.
- D**
- 14 *Dendrobium platycaulon* R. A. Rolfe (1892) flowered and sent for identification in c. 1891; painted December 1892, LS.
- E**
- 384 *Epidendrum congestum* R. A. Rolfe (1913) type specimen from Glasnevin (ex Costa Rica); flowered and sent for identification in January 1911.
- 77 *Epidendrum hartii* R. A. Rolfe (1894) type specimens from Glasnevin and Trinidad (leg. J. H. Hart); flowered and sent for identification in May 1890.
- 45 *Epidendrum laucheanum* R. A. Rolfe (1893) flowered and sent for identification in September 1892; painted September 1894, LS; September 1895, JH.
- 7 *Epidendrum mooreanum* R. A. Rolfe (1891) flowered and sent for identification in May 1889.
- 56 *Epidendrum pumilum* R. A. Rolfe (1893) flowered and sent for identification early in 1893; painted November 1893, LS.
- 444 *Epidendrum tricarinatum* R. A. Rolfe (1917) type specimen from Glasnevin (ex Peru, per, Sanders, leg. L. Forget); flowered and sent for identification in June 1916; painted June 1916, AJ.
- 443 *Eria albolutea* R. A. Rolfe (1917) type specimen from Glasnevin (ex Phillipines); flowered and sent for identification in August 1916.
- I**
- 422 *Ione flavescens* R. A. Rolfe (1914) type specimen from Glasnevin (ex Burma (Mount Victoria), leg. Charlotte Wheeler Cuffe); flowered and sent for identification in September 1914.
- 313 *Ione grandiflora* R. A. Rolfe (1908) flowered and sent for identification after November 1902; painted November 1904, LS.
- L**
- 59 *Luisia amesiana* R. A. Rolfe (1893) flowered and sent for identification c. 1893; painted June 1892, LS.
- M**
- 271 *Masdevallia peruviana* R. A. Rolfe (1906) type specimen from Glasnevin (ex Peru, collector unknown); flowered and sent for identification in July 1898 and subsequent occasions; painted June 1898, LS.
- 65 *Masdevallia pusilla* R. A. Rolfe (1893) type specimen from Glasnevin (origin unknown); flowered and sent for identification in August 1891 and subsequent occasions; painted October 1891, LS.
- 487 *Maxillaria insignis* R. A. Rolfe (1922) type specimen from Glasnevin (ex Peru, per Sanders, leg. L. Forget); flowered and sent for identification in May 1912.
- 129 *Maxillaria mooreana* R. A. Rolfe (1895) flowered and sent for identification c. 1895; painted April 1892, LS.
- 118 *Maxillaria sanguinea* R. A. Rolfe (1895) flowered and sent for identification after 1890; painted April 1892, LS.

93 *Megaclinium pusillum* R. A. Rolfe (1894)
type specimen from Glasnevin (ex east tropical
Africa); flowered and sent for identification in June 1894;
painted June 1894, JH.

401 *Megaclinium ugandae* R. A. Rolfe (1913)
type specimen from Glasnevin (ex Uganda, per J.
O'Brien); flowered and sent for identification in March 1912
and 1913.

399 *Mystacidium gracillimum* R. A. Rolfe (1913)
type specimen from Glasnevin (ex Uganda, leg.
E. Brown); flowered and sent for identification in December
1911.

O

78 *Ornithidium fragrans* R. A. Rolfe (1894)
flowered and sent for identification in March
1893.

P

247 *Panisea tricallosa* R. A. Rolfe (1901) type
specimen from Glasnevin (ex Assam); flowered and sent for
identification in April 1896.

40 *Pelexia maculata* R. A. Rolfe (1893) type
specimen may be from Glasnevin (origin uncertain); flowered
and sent for identification in July 1892.

436 *Phalaenopsis latisejala* R. A. Rolfe (1920)
sent for identification through Glasnevin.]

1 *Physosiphon guatemalensis* R. A. Rolfe (1891)
type specimen from Glasnevin (ex Guatemala);
flowered and sent for identification in June 1890 and 1891

41 *Physosiphon lindleyi* R. A. Rolfe (1893)
type specimens from Glasnevin and Mexico (leg.
J. Linden 1234); flowered and sent for identification in April
1892.

202 *Platyclinis rufa* R. A. Rolfe (1898) type
specimen from Glasnevin (ex tropical Asia); flowered and
sent for identification in February 1894.

331 *Pleurothallis attenuata* R. A. Rolfe (1909)
flowered and sent for identification in August
1892.

71 *Pleurothallis inflata* R. A. Rolfe (1894)
flowered and sent for identification in c. 1892;
painted December 1891, LS.

51 *Pleurothallis puberula* R. A. Rolfe (1893)
type specimen from Glasnevin (origin unknown);
flowered and sent for identification in January 1892 and 1893.

66 *Polystachya buchananii* R. A. Rolfe (1893)
flowered and sent for identification in September
1889 and in succeeding years.

R

23 *Restrepia dentata* R. A. Rolfe (1892) type
specimen from Glasnevin (origin uncertain); flowered and
sent for identification on several occasions before 1892;
painted May 1891, LS.

S

49 *Saccolabium mooreanum* R. A. Rolfe (1893)
flowered and sent for identification in October
1892.

276 *Saccolabium rubescens* R. A. Rolfe (1906)
flowered and sent for identification after March
1906; painted April 1906, LS.

277 *Sarcanthus inflatus* R. A. Rolfe (1906)
type specimen from Glasnevin (ex Annam, per
Sanders, leg. W. Micholitz); flowered and sent for
identification in April 1906; painted July 1905, LS.

318 *Scaphyglottis alba* R. A. Rolfe (1908)
type specimen may be from Glasnevin (origin not
known, per Sanders); flowered and sent for identification in
May 1908; painted May 1908, AJ.

409 *Signatostilax bicornuta* R. A. Rolfe (1913)
type specimen from Glasnevin (ex Peru, per
Sanders, leg. L. Forget); flowered and sent for identification
in January 1912. ■

Neomoorea irrorata

Appendix II from *Orchids of Glasnevin* listing plants depicted in *Curtis's Botanical Magazine* using material and information from the collection at Glasnevin

- 3793 *Miltonia candida* var. *flavescens* (April 1840)
3929 *Catasetum abruptum* (March 1842)
3942 *Catasetum globiferum* (May 1842)
5990 *Masdevallia lindenii* (September 1872)
7026 *Calanthe striata* (October 1888)
7123 *Lueddemannia pescatorei* (July 1890)
7143 *Acineta densa* (November 1890)
7262 *Moorea irrorata* (November 1892)
7431 *Pleurothallis scapha* (August 1895)
7958 *Bulbophyllum weddelii* (June 1904)
7968 *Vanda pumila* (August 1904)
8000 *Bulbophyllum crenulatum* (February 1905)
8041 *Momordes buccinator* var. *aurantiacum* (May 1905)
8062 *Arachnanthe annamensis* (March 1906)
8131 *Cymbidium erythrostylum* (April 1907)
8160 *Bulbophyllum dichrochum* (October 1907)
8273 *Megaclinium purpureorchis* (September 1909)
8297 *Coelogyne mooreana* (February 1910)
8662 *Eria tomentosa* (May 1916)
8809 *Odontoglossum cristatum* (July 1919)
8949 *Maxillaria fletcheriana* (February 1923)
8954 *Cirrhopetalum tripudiana* (February 1923)
9376 *Maxillaria fuscata* (October 1934)
9440 *Lycaste longiscapa* (May 1935)

See Appendix 2 in E. C. Nelson and E. M. McCracken, *The brightest jewel. A history of the National Botanic Gardens, Glasnevin, Dublin* (Kilkenny, Boethius Press. 1987) for other orchid plates associated indirectly with Glasnevin.
